

LTW DESIGN

Since the staging and design firm LTW Design opened their doors, they have won numerous national awards as Top 10 Stager in the Country and have established quite an impressive portfolio including homes for Bruce Willis and Emma Hemming, NY Knicks player RJ Barrett and the 2020 waterfront IDEA Dream House for This Old House. Clients are drawn to their clean and calming aesthetic of bold neutrals and layered textures that all represent their philosophy of 'less is more'. Always on the go, Founder + CEO, Leia T. Ward is hands on in all of their projects working alongside her talented team. From waterfront homes to all glass penthouses in the city, they have staged and designed some of the most sought-after real estate in New York and Connecticut, ranging from \$5-\$25M. LTW has set the bar as the go-to firm for luxury homes with a growing roster of new projects and artisans creating pieces specifically for their clients. And after many requests, shortly launching is the LTW Studio making available some of their favorite pieces so everyone can incorporate the LTW look in their home.
